Dear Mr. Pawlicki:

Re: Acceptance for Temporary and Partial Donation of Ground Water Certificate G3-28949C

The purpose of this letter is to acknowledge Department of Ecology's acceptance of your donation to the Washington State Trust Water Rights Program (TWRP). The trust water right has been assigned the control number CG3-28949C@1. Please refer to that number when corresponding with us about this trust water right.

The Department of Ecology, pursuant to RCW 90.42.080(1)(b), acknowledges your donation in the amount of 450 gallons per minute and 157.5 acre-feet per year, and for 45 acres. The purpose of the donation is to benefit the ground water aquifer in Grant County, Washington, from December 1, 2011 to June 30, 2016.

This trust water right expires on June 30, 2016.

The parent water right, G3-28949C, authorized the withdrawal of 800 gallons per minute, up to 280 acre-feet per year for the irrigation of 80 acres during the irrigation season. The recorded place of use is located within E½NW¼ of Section 26, T. 21 N., R. 24 E.W.M.

Section 90.42.080 provides in part that the total of any portion of the water right remaining with the donor plus the donated portion of the water right may not exceed the extent to which the water right was exercised during the five years before the donation.

In accordance with RCW 90.42.040(6), RCW 90.14.140(h), and RCW 90.14.215, a water right is not subject to relinquishment while it is managed within the Trust Water Rights Program.

Ecology's acceptance of the donated water right into the Trust Water Rights Program is not evidence of the validity or quantity of the right. When the period of trust ends, the water right will revert back to the water right holder or landowner in the full quantity accepted into the trust water program and for the original purposes.

Your water right is a Family Farm Water Act (FFWA) water right as defined under Chapter 90.66 RCW. The FFWA does not provide explicit authority for Ecology to accept water rights via the donation process as described under the trust water right statutes of Chapters 90.38 or 90.42 RCW. However, Ecology will accept a FFWA water right via donation into the TWRP with disclosure that certain legal risks to the future validity of your water right may exist. The primary risk could be relinquishment should a court proceeding determine that your water right was not legally able to qualify for trust status as defined under the Family Farm Act or the trust water right statutes.

Absent a court ruling to the contrary, Ecology will view FFWA water rights donated to the TWRP as beneficially used and not subject to relinquishment consistent with RCW 90.42.040(6), RCW 90.14.140(h), and RCW 90.14.215. Ecology is willing to work with FFWA water right holders on a case-by-case basis to determine whether options exist to reduce or eliminate this legal risk.

If, prior to expiration of your donation, you elect to extend the term of this temporary donation, please send us a written request. Also, if you wish to modify any terms of your donation, your letter must include the new terms. Ecology will review your request of any new or modified terms and conditions and you will be notified if the donation can be extended.

If you have questions or concerns, please call Ying Fu at (509) 324-3451.
